

## Suggested Lesson Plan for Women's Suffrage Activity

This activity is designed to be taught in two segments, taking a portion of two class periods. It is entirely based upon the document "Women's Suffrage Centennial Celebration" from the Wisconsin Historical Society.

### DAY 1:

1. Distribute one copy of the quiz to small groups of students. They are to work on answering the questions cooperatively. You may want to make this a competition as a motivator. Allow at least 30 minutes. You may or may not want to allow internet / phone use.
2. Collect the quizzes, making sure each group has names on the copy.

### DAY 2:

1. Redistribute quizzes making sure each group has a copy from a different group for corrections.
2. Go through answers using the power point for corrections.
3. Have groups write a score at the top of each quiz and return.
4. Reward winning groups if desired.
